CERTIFICATION OF ATTENDANCE

☎ (7- 812) 444 60 90

☎ (7- 812) 444 41 63

17 June 2006

This letter certifies that

N. N.

attended lectures and practicals of the St. Petersburg Summer School 2006

Nonhydrostatic Dynamics and Fine Scale Data Assimilation

held from 11 to 17 June 2006 in Sanatorium Dunes, Sestroretsk, Russia.

Introduction to the methods of nonhydrostatic dynamics and numerics as well as fine-scale data-assimilation were given. Course exercises contained practical application of the theory at an introductory level. During the course, several aspects of the numerical weather prediction models HIRLAM and ALADIN were presented and discussed.

The total amount of lectures consisted of 27 hours, including scientific presentations of participants, and practicals of 12 hours.

The summer school was arranged at postgraduate – PhD student level.

Ekaterina Kourzeneva
(course leader)
